Modified Page Playoff System

Team ranked 1st plays against the team ranked 2nd. The winner advances to the final game, the loser goes to the semifinal game. Team ranked 3rd plays against the loser of the 1v2 game in the semifinal game. The winner of the semifinal advances to the final, the loser is ranked 3rd.

* If a team wins the Round Robin outright – definition: at least one win ahead of any other team, then they will advance to the final. The team ranked 2 will play the team ranked 3 in the semi-final.

* If 2 or 3 teams are tied for first place after the round robin, then the team ranked 1st plays against the team ranked 2nd. The winner advances to the final game, the loser goes to the semifinal game. Team ranked 3rd plays against the loser of the 1v2 game in the semifinal game. The winner of the semifinal advances to the final, the loser is ranked 3rd.

* Semi-finals with 1 v 4 and 2 v 3:

* If 4 teams are tied for first place after the round robin, then the teams are ranked, and 1v 4 and 2 v 3 in the semifinals. The semifinal winners advance to the gold medal game. The semifinal losers play in the bronze medal game.

* If more than 4 teams are tied for first place after the round robin, tie-breaker games are played to reduce the field to 4 teams (see tie-breaker chart for 4 qualifiers).

Double Loss Provision: An undefeated team in the finals must be defeated twice. If there is an undefeated team in the finals, the first game will be played Saturday morning.
